A. The order of ranking or importance in the evaluation shall be as follows:

The score for each area will be determined by multiplying the sum of the criteria in each area by the area evaluation factor. The area evaluation factors are as follows:

Price/Cost Area: .30
Technical Area: .40

Management Area: .30

B. Final/Overall Scoring

The final proposal score will be determined by adding the area scoring. The sum of the area scores will be the final/overall score.

3.3 SELECTION COMMITTEE

A selection committee will review all proposals. Through this process, the City will determine which proposals are acceptable or unacceptable. The City will notify, in writing, the Offerors whose proposals are deemed to be unacceptable. Those Offerors offering proposals deemed to be acceptable by the City will be evaluated and scored by the selection committee. This scoring will determine which Offerors are considered to be in the competitive range and may be the basis for an award decision without further steps.

If the selection committee elects not to award based upon evaluation scoring, it may engage in a forced elimination process. To inform this process, it may require oral presentations or interviews with the Offerors considered to be in the competitive range. If oral presentations or interviews are conducted, they may also be scored, or they may simply be considered as information supporting the forced elimination process. The selection committee may request revisions to the proposal from each of the Offerors at the conclusion of the interviews. The intent of the forced elimination process is to reach consensus. The decision will be based on all relevant factors, and based upon perception of best value. The final decision may or may not exactly reflect scoring ranking.

The City also reserves the right to request best and final offers from all Offerors at any point in the proposal evaluation process.

3.4 AWARD OF CONTRACT

It is anticipated that there will be negotiations or discussions with Offerors. However, the City reserves the right to award without negotiations or discussions. The City also reserves the right to award a contract not necessarily or merely to the Offeror with the most advantageous price. The City intends to award to the Offeror that demonstrates the best value to the City and the most substantiated ability to fulfill the requirements contained in this Request for Proposal. A contract prepared by the City will be finalized and/or negotiated with the successful Offeror. In the event a contract cannot be negotiated with the top ranked Offeror, the City may enter into negotiations with the second highest ranked Offeror, or the City may decide to call for new proposals. Immediately after the notice of award, the successful Offeror will begin planning in conjunction with the City of Colorado Springs staff (to be designated by the City) to ensure fulfillment of all its obligations. The successful Offeror may be expected to attend regular meetings as required by the City to assist in the preparation for startup.

Where Contractor's services have been so terminated by City, the termination will not affect any rights or remedies of City against Contractor or Surety then existing or which may thereafter accrue. Any retention or payment of moneys due Contractor by City will not release Contractor from liability.

C. Termination Notice. Upon receipt of a termination notice, whether for convenience or cause, the Contractor shall immediately: discontinue all services affected (unless

the notice directs otherwise), and deliver to the City all data, drawings, specifications, reports, estimates, summaries, and other information and materials accumulated in performing this Contract, whether completed or in process.

D. Removal of Equipment. Except as provided above, in the case of termination of this Contract before completion from any cause whatever, the Contractor, if notified to do so by the City, shall promptly remove any part or all of Contractor's equipment and supplies from the property of the City, failing which the City shall have the right to remove such equipment and supplies at the expense of the Contractor.

The City's authorized representatives shall have access during reasonable hours to all records, which are deemed appropriate to auditing billing statements, reports, performance indices, and all other related documentation. The Contractor agrees that it will keep and preserve for at least seven years all documents related to the Contract which are routinely prepared, collected or compiled by the Contractor during the performance of this Contract.

In no event shall the City be responsible for overtime pay.

- C. Contract termination under this provision shall constitute a breach of contract by the Contractor, and the Contractor shall be liable to the City for all costs of reletting the contract or completion of the project. Further, if the Contractor is terminated under this provision, or violates this provision but is not terminated, the Contractor shall be subject to debarment under the City's Procurement Regulations. 1. Introduction

The City of Colorado Springs, dba Mountain Metropolitan Transit (MMT), seeks proposals from qualified and—as regulations require—certified industrial hygiene and environmental engineering firms with expertise in illicit substance testing (specifically methamphetamine and fentanyl).

MMT seeks to establish an on-call contract for rapid-response substance testing services to enable prompt response to potential public health risks arising from illicit substance use in buildings or vehicles owned or operated by MMT and its contracted service providers.

2. Objective

The objective of this Request for Proposal is to procure services from a qualified, capable, and—as regulations require—certified firm to provide professional industrial hygienist services for the purposes of assessing, characterizing, analyzing, quantifying, and reporting on the presence of illegal or illicit substances (primary methamphetamine and fentanyl) which may pose public health risks within the buildings and/or vehicles owned or operated by MMT and its third-party service contractors.

3. Definitions

This section provides definitions for terms used within this statement of work only. Terms such as “Contractor” and “Consultant” are used within this statement of work differently from their use in 6 CCR 1014-3, and are adapted for stylistic suitability and readability only. In the case of conflicts of meaning besides these adapted terms, the definitions and regulatory provisions of 6 CCR 1014-3 shall otherwise govern.

“Decontamination” means the process of reducing the level of contamination to the lowest practical level using currently available methods. At a minimum, decontamination must reduce contamination of specified substances below the concentrations allowed by 6 CCR 1014-3 and any variances from standard practice approved by CDPHE.

The Contractor shall prepare a preliminary assessment report for MMT’s review before submission to CDPHE within (72) hours of receipt of laboratory analysis results. The Contractor shall submit the preliminary assessment report following MMT’s review and approval. This review stipulation exists only to ensure that MMT has the opportunity to protect the identity of individuals who may be involved in a situation to which the

Contractor responds or to update/correct situational details and is not to be construed as an attempt to influence or interfere with the independent performance of the Contractor's regulatory responsibilities.

The Contractor shall be responsible for providing—to MMT only, and within the boundaries of regulatory structure—its professional opinions and guidance on a potential or actual contamination situation and on any decontamination efforts which may be required as a result of a positive outcome of a preliminary assessment.

The Contractor shall prepare a clearance assessment report for MMT's review before submission to CDPHE within (72) hours of receipt of laboratory analysis results. The Contractor shall submit all clearance assessment report information to CDPHE per applicable regulations.

The Contractor shall liaise on MMT's behalf with CDPHE and the El Paso County Department of Public Health for all communications necessary during project operations, including the requesting and justification of variances from standard practice, if applicable. The Contractor shall copy the MMT Project Manager (PM) on all such communications as regulations allow, and on any communications with additional third parties. The Contractor shall treat all project communications as confidential and shall not disclose details pertaining to an ongoing assessment project to external parties unless required by applicable laws, statutes, or regulations, or unless specifically required to execute the Work.

Fentanyl

In the absence of formal regulatory guidance for the sampling, analysis, and reporting on the potential presence of contaminants associated with fentanyl, the Contractor's proposal shall describe a technical solution whereby the Contractor may assess a building or vehicle for the presence of fentanyl or contaminants associated with any method of use of fentanyl, including combustion (smoking). The Contractor shall propose and perform a technical solution which relies upon the most current and comprehensive professional guidance or industry standards which are extant for this substance. The Contractor shall describe the technical solution including the sampling approach, safety and personal protective considerations, the analysis methodology, the actual sampling procedure (including media, quantity of samples, discrete or composite sample structure), and quality assurance/quality control considerations. The Contractor shall provide citations to industry or professional research to substantiate the viability and validity of the technical solution proposed.

Upon request, the Contractor shall implement the technical solution described to assess, characterize, analyze, quantify, and report on the presence of fentanyl, its derivatives, or contaminants associated with its use, following the general procedural structure outlined by 6 CCR 1014-3 for methamphetamine, and similar state or federal guidance which may be extant.

The Contractor shall be responsible for responding to an assessment request within (48) hours of MMT's written request to Contractor. The Contractor shall be responsible for achieving the analysis of samples gathered and shall produce a report comprehensively documenting and describing the assessment effort no later than (72) hours of receipt of the results of laboratory analysis.

Other Substances or General Professional Services

Unforeseeable operating conditions may result in MMT requiring the general professional services of the Contractor for project management, professional guidance, research, or other services not specifically outlined above. As such, the Contractor shall use the included Price Sheet to propose an hourly labor rate for any staff members whose professional services the Contractor may be able to offer on an hourly basis, such as:

- The firm Principal(s)
- Industrial Hygienists and Certified Industrial Hygienists
- Environmental Engineers
- Junior professional employees formally educated and trained in industrial hygiene or environmental engineering
- Technicians
- Administrative Assistants and Support Staff

In addition, MMT may elect to communicate with the Contractor regarding novel or unique situations which may arise and to which the Contractor may be capable of rendering service. The Contractor may elect to furnish MMT with cost proposals—incorporating any contracted rates, where applicable—at Contractor's option.

5. City Furnished Property

Aside from the temporary issuance of badge cards or keys required to access facilities, no City property shall be furnished to Contractor.

6. Travel

The Contractor shall be responsible for transportation or travel costs required to fulfill the contract requirements, and such costs shall be specifically identified in the cost section of the proposal documents.

7. Regulatory and Legal Requirements

The Contractor shall be familiar with applicable local, state, and federal regulations and requirements which may bear upon the execution of the Work. The Contractor shall be responsible for ensuring that all contract activities are executed in strict accordance with all applicable regulations and other legal requirements.

Certification Requirements

- The Contractor shall be a Certified Industrial Hygienist, with current, valid certification by the American Board of Industrial Hygiene or its successor.
- The Contractor shall be certified by the Colorado Department of Public Health and Environment to perform the Work according to applicable statutes and regulations.
- The Contractor is responsible for maintaining required certifications at all times during the contract period. Since the contract Work depends upon the Contractor maintaining active certifications as required, lapses in valid certification status may be grounds for MMT to terminate the contract.
- The Contractor shall be responsible for notifying the MMT PM in writing immediately upon Contractor becoming aware of any conditions which may negatively affect Contractor's active certification status. Failure to inform the MMT PM of any such conditions or changes may be grounds for MMT to terminate the contract.
- Copies of all applicable certificates and documentation shall be included with the Contractor's proposal documents.

Applicable Statutes and Regulations

Applicable statutes and regulations include, but are not limited to:

- C.R.S. 25-18.5
- C.R.S. 38-35.7-103
- 6 CCR 1014-3

Disclosures and Conflicts of Interest

Per 6 CCR 1014-3 and other applicable regulations, the Contractor must be independent of any Decontamination Contractor which MMT may retain in association with a positive preliminary assessment.

The Contractor shall be solely responsible for disclosing to MMT, at the time of proposal, any such business or personal relationships which may interfere with this independent status, and the Contractor shall disclose to MMT in writing whether such status changes at any point during the contract period.

8. Places and Times of Performance

Places of performance will vary according to situational requirements but are generally expected to be located within MMT's service area of metropolitan El Paso County.

Locations include, but are not limited to:

- Downtown Terminal – 127 E Kiowa St., Colorado Springs, CO 80903
- Fixed-Route Maintenance Facility – 1145 Transit Dr., Colorado Springs, CO 80903
- Fixed-Route Operations Facility – 1190 Transit Dr., Colorado Springs, CO 80903

Contractor's proposal shall specifically include an hourly cost for staff travel time.

The Work may be completed during or after business hours, with written approval of the MMT PM. Access (badges and keys) will be provided to Contractor's staff at the MMT PM's discretion.
